About the Event

PHP Istanbul Users Group and Chamber Of Computer Engineers are planning an event about PHP, which is the most used server side pr programming language on web. It's been used on ~ 75% of web sites and gaining more popularity every day.

Event will be placed at Yildiz Technical University's Besiktas Campus on July 6th. It will be free for attendees.

In this very first year of our php-ist event, we're planning to attract between 400 and 500 PHP developers and professionals working in related fields. We're inviting you to sponsor the first installation of a very exciting event, in one of the fastest growing economies of the world, where web development is seen as a big opportunity for both domestic and foreign ventures.
